

ADNAN SAJJAD MAKRANI

DATA ANALYST

SQL | Python | Power BI | PostgreSQL | Business Intelligence

 Bhopal, MP, India |  6264368602 |  adnansajjad360@gmail.com |  LinkedIn |  GitHub

SUMMARY

Results-driven Data Analyst with 2 years of professional experience in SQL, PostgreSQL, Python, Advanced Excel, and Power BI. Experienced in building data-driven solutions through Exploratory Data Analysis (EDA), dashboard development, statistical analysis, and automated reporting. Proficient in transforming complex datasets into actionable business insights that support strategic decision-making. Passionate about leveraging analytics and business intelligence to solve complex business problems through data-driven decision-making.

PROFESSIONAL EXPERIENCE

Data Analyst

June 2024 – May 2026

Connex Global Solutions

- Developed and optimized complex SQL queries utilizing Window Functions, Common Table Expressions (CTEs), Joins, Views and Subqueries to transform enterprise datasets into business-ready reports.
- Conducted Exploratory Data Analysis (EDA) to identify customer behavior, operational trends, business anomalies, and performance opportunities, enabling data-driven decision-making.
- Automated reporting workflows using Python (Pandas, NumPy, SQLAlchemy), improving reporting efficiency and minimizing manual data processing.
- Built interactive dashboards and executive KPI reports using Power BI, Advanced Excel, Plotly, and Matplotlib, providing stakeholders with clear business insights.
- Applied statistical analysis using SciPy and Statsmodels to support predictive analytics and business intelligence initiatives.
- Collaborated with cross-functional teams to translate business requirements into scalable analytical solutions while maintaining high standards of data quality and documentation.

TECHNICAL SKILLS

- Databases:** PostgreSQL
- Programming:** Python, SQL
- Visualization:** Power BI, Matplotlib, Advanced Excel, Plotly
- Data Analysis:** EDA, Data Cleaning, Data Wrangling, Statistical Analysis
- Tools:** Git, GitHub, Jupyter Notebook, PyCharm
- Libraries:** Pandas, NumPy, SQLAlchemy, SciPy, Statsmodels

EDUCATION

Bachelor of Technology (B.Tech)

2020 – 2024

Truba Institute of Engineering & Information Technology

- Computer Science Engineering
- Final CGPA: 7.87 / 10

PROJECTS

Retail Customer Behavior Analytics Dashboard | • Python • SQL • Power

- Analyzed customer purchasing behavior and segmentation using Python and SQL to identify sales trends and actionable business insights.
- Developed interactive Power BI dashboards to visualize sales KPIs and business insights.

Netflix Content Intelligence Analysis | • Python • Pandas

- Conducted exploratory data analysis to identify content distribution and release trends.
- Cleaned and transformed datasets using Pandas and visualized insights with Matplotlib.
